TO FILL IN FALL. The new women's Residence Center, scheduled to provide housing for 1,221 students, will be ready for occupancy in September. Each of the three wings will operate as a separate unit. The new housing unit includes 621 rooms. (Photo by Si Shapiro, Photo Editor)

New Residence Center To House 1,200 Women

The new Women's Residence Center located on the corner of Thurstin and Ridge Streets will be ready for use in September.

The residence center will have three separate units combined to make one dormitory, but all units will be connected. The west building will have 238 rooms and will hold 479 persons; the east building will have 210 rooms with 423 occupants; and the north building will have 162 rooms, housing 319 students. This is a total of 610 rooms, with more than 1,200 persons living in the Women's Residence Center.

It is the largest dormitory ever built on campus.

There will be 569 two-man rooms, 15 three-man rooms, and 26 singles, which will be filled by the counselors.

Each of the three buildings will have its own head resident, and there will be 43 students to every counselor.

One of the big problems which male students face in the case of Founder's Quadrangle is tele-

phoning but this problem may be eliminated in the Women's Residence Center. Each building will have a separate switchboard, which will enable the operators to make faster connections. Another thing which will help alleviate this problem is that more phones have been added for student use.

The rooms in the residence center will be similar to those in Conklin Hall and the fraternity houses. The rooms are 15'11" x 9'7" or a total of 146 square feet. The furniture is a dark mahogany color, and the walls are a light beige. These colors were picked because they are soft and will give atmosphere to the room.

The beds will not be built onto the walls as are the beds in Conklin Hall. In the past it was found that this type of bed is hard to make since the students have to lean over the bed and put their hands on the wall. Movable beds will be used to alleviate this problem.

One question which many women students have been asking is, "Who will live in the Women's Residence Center?" Sophomore and junior women will occupy the residence center. This means that Shatzel Hall, Williams Hall, and Kohl Hall will be reverted to men's dormitories. This will relieve any problems caused by over-crowding.

The dining facilities are located behind the north building. There are separate dining halls for the three dormitories for easier service.

Another reason why the dining facilities were set up like this was to give each of the dormitories separate social facilities. If two of the dormitories want to have a dance on the same night they can use their own dining hall, instead of having to consolidate.

Each floor will have its own lounge area. In these lounges there will be several concessions, and a place for students to make popcorn and other snacks. The lounges will be furnished in bright leathered furniture to give it a cheerful appearance.

AROTC Rifle Team Wins 3 Seconds

The Army ROTC rifle team received three second place trophies at the annual inter-service rifle league banquet and tournament held at the University of Michigan, Ann Arbor, Mich., May 5.

The team received second place trophies for its league win-loss record of 8-2 during the season and for its second place aggregate of 1398.9 based on the averages of the scores fired during the season. Awards for placing in the top 10 for high individual marksmen in the league were given to cadets Paul L. Wilkens and William H. Wohler who placed fifth and sixth respectively.

In afternoon firing competition, the team received second place honors with a score of 1402. The University of Michigan took first place with a 1406 total. William H. Wohler was the high marksman for the tournament with a 288 out of a possible 300 score. Charles V. Guy placed fourth with a 285.

Judges Pick Sig Eps, Alpha Chi's Float; Kiss Reigns Over Spring Week End

Judith L. Kiss of Alpha Xi Delta social sorority reigned over Spring Week End as the 1962 May Queen.

Miss Kiss was crowned queen by President Ralph G. Harshman at the May Queen Coronation held in the ballroom Friday night. In her court were senior attendant, Linda E. Neubeck of Delta Gamma social sorority; junior attendant, Gwendolyn M. Jones of Delta Gamma; sophomore attendant, Roberta K. Tripp of Alpha Xi Delta; and freshman attendant, Robyn A. Reinhart of Alpha Xi Delta.

Miss Kiss, the daughter of Mr. and Mrs. Julius F. Kiss, is from Oregon where she attended Clay High School.

Queen Is Not New Experience
Reigning as queen is not a new experience to this petite brown-haired, brown-eyed young woman. She was homecoming queen in high school and she was chosen Kappa Sigma social fraternity Venus Queen here at the University her sophomore year.

Miss Kiss has been an active member of the Association of Women Students Legislative Board and a secretary for various student body committees. She also is secretary of her sorority.

Elementary Education Major
As for future plans, Miss Kiss, an elementary education major, already has accepted a position to teach second grade at Lark School in Toledo, in September.

Since sewing is one of Miss Kiss's favorite pastimes, she makes a large majority of her clothes. She also enjoys swimming and bowling.

Interested in Modeling
In addition, Miss Kiss has an interest in modeling since she served on the college board of La Salles department store in Toledo last summer.

Thirteen of Miss Kiss's relatives surprised her by attending the coronation ceremonies. After the coronation, her mother told her that "this was the nicest Mother's Day gift she had ever received."

After being crowned May Queen, Miss Kiss said, "I just can't believe it. This is the nicest thing that has ever happened to me."

Fraternities Pledge Aid To Swope Fund

J. David Swope of Sigma Chi social fraternity is now in a Canton hospital recovering from a serious leg injury incurred April 26 during a water fight.

In order to alleviate the financial burden necessitated by the accident, the fraternity system has agreed informally to contribute \$1 per man toward the payment of Swope's hospital bill.

Fraternity pledges now totaling \$1,100 will be turned over to Robert E. McKay, director of student financial aid, who will administer the funds.

Annual Kappa Sig Chariot Race To Highlight Week-End Activities

Bowling Green's version of "Ben Hur," complete with Roman splendor and pageantry, is scheduled to take place this week end.

Housing units are making final preparations during this week for the fourteenth annual Kappa Sigma All-Campus Chariot Race. All entries are completing their chair decorations, and runners are getting in shape for the starting gun to go off Saturday.

Highlights of the up-coming week end include the crowning of the "Venus Queen," who will reign over the festivities; a parade complete with chariots and participants in Greek togas; and the main event itself, the racing of human-drawn chariots.

"The events should provide color, enjoyment, and plenty of excitement for the crowd and participants," said Jerome J. Bulcher, chairman of the event.

The 1962 Kappa Sigma Venus Queen will be crowned during a program starting at 7:30 p.m. Friday behind the Union. Pictures of the queen candidates will be on display today through Thursday in the display cases in the main corridor of the Administration Bldg.

MISS KISS

BG To Offer 17 Workshops

Seventeen workshops will be offered this summer by the University. The workshops will meet either on campus or in one of several northwest Ohio cities.

Areas in which workshops will be offered are art, economics, education, English, home economics, health and physical education, music, and speech.

Several of the workshops will be taught by visiting summer faculty members. Frank Smith, supervisor of art, Sandusky Public Schools, will teach the Art for Elementary Teachers Workshop at Sandusky.

The Slow Learning Child Workshop will include two demonstration groups of children and will consist of two courses, Education W433 and W434. The four instructors of this workshop will be Miss Virginia Baker, supervisor, Division of Special Education, State Department of Education; James Rudder, Elementary supervisor, Southwestern School District; Mrs. Martha Strickler, Special Education Teacher, Toledo; and Mrs. Mary Gross, Teacher of Slow Learners, Bowling Green City Schools.

The director of the Children's Book Caravan, Mrs. Ruth Toozee, will instruct the three week Books for Children Workshop.

Also at Sandusky will be the Music for Elementary Teachers Workshop. This course will be taught by Mrs. Mildred McCrystal, supervisor of Elementary Music, Sandusky City Schools.

Speech W492, Creative Dramatics, will be under the direction of Dr. James E. Popovich, associate professor of speech, University of Georgia, Director.

Alpha Xi Delta social sorority and the combination of Sigma Phi Epsilon social fraternity and Alpha Chi Omega social sorority walked away with top honors for the 1962 May Week End.

The week end began on Friday night, with the crowning of Judith L. Kiss, a member of Alpha Xi Delta, as 1962 May Queen. Members of her court included: Linda E. Neubeck, senior attendant; Gwendolyn M. Jones, junior attendant; Roberta K. Tripp, sophomore attendant; and Robyn A. Reinhart, freshman attendant.

The coronation, co-sponsored by the class of 1963 and the Student Spirit and Traditions Board, was held in the grand ballroom. Entertainment was provided by the Kappa Sigma Barbershop Quartet.

Sigma Phi Epsilon and Alpha Chi Omega combined to take top honors in the float parade held Saturday. The winning float had as its theme, "Antony and Cleopatra." It was a two-wagon float, the first depicted a wave-tossed ship, done in brown and yellow, beaching on a shore. On the second wagon, a graduated platform led up to "Cleopatra," played by Alpha Chi Omega's queen candidate. Two "native" men stood beside the platform and fanned Cleopatra and her court. A movable crepe figure stood in the front of the ship and bowed to the Queen.

Containing 40-50,000 paper flowers, the float took an esti-

mated 2,000 hours to construct, including making the flowers.

Second-place honors went to Delta Gamma social sorority and Phi Delta Theta social fraternity for their float entitled, "All the World's a Stage." On the first of two wagons was a rotating pink and white scroll, with the theme inscribed on it. The second wagon featured a green and yellow globe. One-half of the globe was hollowed out, and Delta Gamma's queen candidates rode in its red interior.

Third place went to Alpha Phi social sorority and Phi Kappa Psi and Delta Upsilon social fraternities. Their float was entitled, "The World Is Mine Oyster." It had a green and yellow sea, on which was set a white and pink oyster, which alternately opened and closed. Alpha Phi's queen candidate rode inside the oyster.

The parade left Overman Hall at approximately 1:15 p.m., and wound its way along Wooster St. to Main Street in Bowling Green. Then the entourage returned along Ridge St. and into the stadium for (Con't. On Page 4 Col. 6)

Miesle To Succeed Kleckner As Speech Department Chairman

University President Ralph G. Harshman has announced that Dr. F. Lee Miesle, associate professor of speech and director of the University Theatre, will succeed Dr. Donald C. Kleckner as chairman of the department of speech.

Dr. Kleckner resigned earlier this month to become dean of Elmhurst College in Illinois.

The new chairman received both the B.A. and the M.A. degrees from Bowling Green, and the Ph.D. degree from Ohio State University in 1955.

Dr. Miesle joined the Bowling Green faculty in 1948, and has been director of the Theatre since 1951. In 1956, he became managing director of the Huron Playhouse, a University-sponsored summer theatre workshop in Huron.

Professor Miesle has directed more than 100 plays during his years at Bowling Green and Ohio State. He is a member of the Speech Association of America, American Educational Theatre Association, American National Theatre Academy, Ohio Association of College Teachers of Speech, International Institute for Theatre Technicians, Theta Alpha Phi, national dramatics society, Pi Kappa Delta forensics society, and Pi Kappa Alpha social fraternity.

The new chairman's appointment becomes effective June 3.

DR. MIESLE

Kappa Delta Pi Initiates 35 Honor Students

Thirty-five students were initiated into Kappa Delta Pi, honor society in education, on May 9. Dr. John L. Davidson, assistant dean of the College of Business Administration gave the welcoming address.

The new initiates are Helen J. Acocks, Veronica Andrews, Sandra L. Berry, Vicki L. Bowerman, Louanne C. Brown, Karol A. Burge, E. Catherine Dickson, Linda L. Enycart, Gergory G. Gaydos, Sara E. Hamlin, Joyce A. Harmon, Janet L. Hunter, Mrs. Jimmie Hutchinson, Carol J. Jeffery, Francis G. Johns, Floyd E. Karmilowicz, Barbara J. King, Sandra J. McDaniel, Sandra L. McDowell, David T. Melle, Marion E. Michel, Patricia A. Van Osdel, Carolyn A. Petro, Hannah L. Plant, Phyllis M. Riepenhoff, Robert F. Rymers, Joyce M. Scott, Joan A. Slebos, Barbara L. Smegelski, Sherri L. Tipton, Nancy J. Ulrey, Janet R. Van Tassel, Faith M. Zuranski, Judith T. Jones, and Ronald L. Euton.

Seniors To Present Student Recital Tonight

Bonnie K. Moore, pianist, and Cathy A. Jackman, soprano, will give a student recital at 8:15 tonight, in the Hall of Music.

Miss Moore will perform "Sonata in B Flat Major" by Mozart, three Brahms Intermezzi, and three Debussy Preludes.

Debussy's "Chansons de Bilitis" will be sung by Miss Jackman. She will also present Vaughan-Williams' "The Twilight People" and "The Water Mill," Duke's "In the Fields," Barber's "Hermit Song," and a Marcello cantata, "Chiusa in Placida Quiete."

LYNNE D. FRIESENBRUCH will model this wedding gown in the last of the "Here comes the bride" series at 7 p.m. Thursday in the ballroom. The program will be divided into four parts: presentation of bride's trousseau, modeling of bridal gowns, soloists singing wedding songs, and a mock wedding.

Third Place Winner?

What kind of effect do the student governing bodies really have on campus?

Recently two social fraternities were placed on social probation by the Interfraternity Judicial Board for their part in one of the skits at the Pi Kappa Alpha pie-eating contest.

When the action was taken the chairman of the Interfraternity Judicial Board issued a statement saying that neither fraternity was to be allowed participation in any University-sponsored event. This statement was clearly issued.

If the past week end was an example of the effectiveness of such decisions, it would appear that the governing bodies are not doing their jobs.

How can the fact be explained that Delta Upsilon fraternity, one of the groups on probation, entered and won third place in the float contest sponsored by the Student Spirit and Traditions Board. Is this not a University-sponsored event?

Disappearing Books

The Browsing Room of the Union is one of the nice spots of the campus. It furnishes a relaxing atmosphere for studying. Even more than that it provides up-to-date magazines and classic literature for the true browser.

The efforts of eight persons are expended throughout the year to make this an enjoyable place for all. Yet the carelessness and perhaps sticky fingers of a few have begun to rob the room of its necessary materials. As the browsing room committee has said in a letter to the NEWS "a considerable number of books have disappeared without leaving a trace." On a campus where the cry of open stacks in the library is heard so often, it is difficult to see how material from this type of open stacks can disappear so quickly. If the library does expand so that open stacks can be put into operation, a virtual police force will be needed to keep any kind of honesty in the checking out of books. Perhaps the student body needs to learn to act as honest adults before they can be treated as such.

TAKING A BREAK, Anne E. Jarema halts her work as a member of the University yearbook staff. Miss Jarema is a freshman in the College of Liberal Arts. The yearbook, the Key, will be distributed May 22.

Signs Of Spring On Campus Include Sun, Flowers, Tennis

By Horace Coleman
Staff Writer

April showers brought few flowers to Bowling Green (the imitations in the flower box of Rodgers Quadrangle and dandelions notwithstanding). There are, however, other signs that point to the arrival of spring.

And there was sunshine. And trips to the Bookstore and to T.O.'s; and there could be seen, on the tops of dressers and on shelves, tubes of Copper-tone and Man Tan. From the sunbeds of Founders, Shatzel, and Williams, from the courtyard of Rodgers, from the roofs of fraternity houses, the odor of much well-oiled and slightly fried flesh is detectable. Behold, the sunbathers are cometh!

Tennis players also are a good sign of spring; they're as common as ants now. If you like to play tennis you should be on the courts about fiveish. Although you'll have to compete with the tennis team, other people who'd like to get in a few sets and miss dinner (if you leave to eat you may not get a court when you return) the effort is worth it, apparently, to quite a few people.

'Nesting' Receives Competition

When the weather is good, the wind low and the sun high, students take to the open air with vigor. "Nesting" is receiving quite a bit of competition from the concrete benches on campus. The benches have become very popular for late afternoon tete-a-tetes and studying. Bermuda shorts and bicycle riders are as rampant as measles spots on a nine-year-old. Shorts and bikes can be seen almost anywhere on campus anytime of day.

Sunbathing, tennis, bench-straddling, bike riding, and the presence of shorts aren't the only symbols and manifestations of spring. Hats are the key to spring.

Hats. Hats. Hats . . .

What kind of hats? Well, normal headgear, the kind of thing

you'd buy in a store doesn't count. Only originals do. Some originals could be seen at the D.U. bike race or at either of the last two track meets (which, by the way, are another way that balmy afternoons are spent). These "originals" are perfectly normal except that the brim or the crown is missing from them. Some are highly ingenious. Hoy many people can wear a sleeve from a sweatshirt with the proper air of dignity and dash? That even tops a gold air-raid warden's helmet!

The first warm breeze brings many things with it, pledge raids, green derbies, more showers. Here at BG, spring means many things: Hell Week, blankets and radios, and term papers.

The surest signs of spring, are these: couples strolling to the nether regions of the campus and birds chirping merrily in the trees outside your room at four in the morning.

Letters To The Editor

To the Editor:

An important feature of our University Union is the Browsing Room. This room was planned to give every student an opportunity to examine and read a large number of interesting and important books without the formality of looking them up in a card catalog, waiting for someone to bring them from the stacks, filling out a loan slip, and having them charged. The Browsing Room is much like an open-stack library, which everyone is welcome to use on a strictly informal and friendly basis. Familiarity with good books and the best in literature is very important to the development of truly educated and cultured individuals.

Your Browsing Room Committee would like to improve the service offered students by providing access to new and interesting books. There are, in particular, a number of editions produced by the finest book craftsmen in the publishing business, which are beautifully illustrated in color and printed on the highest quality paper, dealing with art, science, nature study, and other areas of interest. These books are rather expensive because of their superlative quality. Over a period of years we should like to make a number of these and other important books available to you, but we have a problem. Since

Professorially Speaking

AAUP Assists College Profs; Strives For Academic Freedom

By Dr. George Herman
Associate Professor of Speech

The American Association of University Professors, usually known as AAUP, held its annual convention in Chicago on April 27 and 28. At this meeting, as in all its activities, AAUP was primarily concerned with the problems of college teachers. As the only national association all of whose members are engaged in college teaching, without regard to the subject they teach, AAUP is naturally concerned with such matters as faculty salaries and faculty job security. At this convention, as at all AAUP meetings, reports of nationwide progress in improvement of faculty salaries, and of the Association's efforts to assist faculty members improperly or unjustly dismissed from their positions, received considerable attention.

In 1940, AAUP framed a now famous "Statement of Principles on Academic Freedom and Tenure," which was endorsed by the Association of American Colleges and a number of other national associations concerned with higher education. AAUP principles have been the guide-lines for the tenure systems of many colleges and universities, among them Bowling Green. The purpose of such tenure systems and of the 1940 statement is to nourish intellectual activity by protecting the teacher's freedom to express the ideas to which research and careful reflection have led him, however unpopular those ideas may be.

It would require a book to list the ideas which we now all accept which faced public disapproval and even persecution when they were first expressed; but I think it is fair to say that modern science and modern society (to say nothing of western religious ideals) rest on ideas which were sometime regarded as outrageous. We may be glad that there have been men who were prepared to follow logic and reason wherever they led, even to personal martyrdom. But we must admit that most of us are made of humbler stuff; and free inquiry into new ideas flourishes best when the examination and expression of ideas which others may disapprove is protected from the threat of punishment. To this purpose, AAUP formulated the 1940 statement, and to this purpose it offers the resources of its national staff to professors, whether or not they are AAUP members, whose intellectual freedom is under attack.

Most recently, the AAUP has recognized the threats to academic freedom inherent in the dispute over segregation in the southern states, and in ill-considered and over-zealous efforts to combat subversive political movements. At the recent national convention in Chicago, the organization adopted a resolution condemning segregation of colleges, and urging the Federal Government to withhold funds under various programs of Federal assistance from institutions with racial or religious restrictions on admission. A further resolution urged institutions of higher learning not to abuse their academic authority by excessive punishment of faculty or students whose protests against social injustice, although under-

taken in good conscience and without violence, bring them into conflict with the community and even with the law. (The resolution is too long to cite, but is directed particularly to problems such as those raised by the recent sit-in demonstrations.)

The convention also resolved to oppose the Cunningham Amendment of the Postage Revision Act, which would prohibit the Post Office Department from distributing mail from abroad which contained matter "determined by the Attorney General . . . to be Communist propaganda . . ." This superficially innocent-looking proposal might, for example, prevent the distribution in this country of Russian government-sponsored newspapers such as Pravda. The effect of such a restriction on scholarly study of modern Russian history and politics is obvious for further comment.

A major item on the agenda of the Chicago meeting was the discussion of a draft of a "Statement of Principles on Faculty Participation in College and University Government." After consideration by local AAUP chapters and some revision, this statement will hopefully be ready for adoption by the 1963 convention. Based on the actual practices of major universities with a long record of sound academic government, the statement turns on the first principle which it expresses: "The faculty should have primary responsibility for determining the educational policies of the institution." The remainder of the statement clarifies the scope of this principle, and suggests means by which it may be insured without hampering the proper functions of college and university administrations. This statement is not yet official AAUP policy, but it probably will be adopted in something very like its present form a year from now. AAUP hopes that the Association of American Colleges will endorse this statement as it did the "Statement on Academic Freedom." The variety of legal charters under which colleges are governed makes this more difficult than agreement on basic principles of academic freedom. Delegates to the convention had an opportunity to study changes in the draft statement which were recommended by a group of college presidents and deans; to our surprise, these result in a statement which encourages flexibility in the means of faculty participation in university and college government, but at the same time tends to strengthen the basic principle that such participation is essential to the formation of sound educational policies.

One action of the Chicago convention is of special interest to Ohio. A resolution was offered to the meeting commending in general terms institutions which make active efforts to keep athletic programs in balance with educational goals. The delegate from the University of Minnesota introduced an amendment to this resolution, which was quickly adopted, commending the faculty of Ohio State University for its widely publicized decision not to participate in the Rose Bowl Game.

Ohio U Inaugurates Alden As President

UPI—Vernon Roger Alden Friday was inaugurated as president of Ohio University.

Immediately, he charged that Ohio has provided little beyond minimum standards in its state universities.

He challenged the university presidents to "inform the public about what it costs to build and nourish a vital educational institution."

The 38-year-old administrator said Ohio's five public universities can boast of no Nobel Prize winners among their faculties and only two members of the National Academy of Science.

"This is not because we lack great teachers," he said. "We have them. But they are not provided with the funds to push forward in their research activity."

He contrasted the Ohio scholar shortage to the University of California, which has 11 Nobel prize winners and 73 members of the National Academy of Science.

College Circuit

By Vern Henry

Seniors with A or B grades in their courses will no longer be exempt from final examinations at North Carolina State College. The Faculty Senate recently recommended that the standing policy of relieving those seniors be discontinued. The University Chancellor approved the recommendation.

The student government president is very unhappy that the students' views were not heard by the Faculty Senate before it made its decision. He said, "student government put on an extensive drive to have the views of the students expressed to the Faculty Senate. It is quite disappointing that the Senate chose not to give the students a chance to express their opinions."

Kent State has tightened its policy concerning off-campus living. A definite rule has been set down stating that students will be approved for unsupervised apartment living next fall only if they are married, graduate students or 23 years of age or older.

Actually the policy statement is only a clarification of an earlier policy statement which restricted apartment living to older undergraduates.

The action is an effort to re-

duce the number of annoyances and complaints which have arisen from some younger single students living in unsupervised apartment housing in and around Kent.

Elephant races, that's right, elephant races, that's what put Orange County State College, Fullerton, Calif. on the map. Elephants are coming from near and far—some of the largest universities in the county participated in this "big" event.

Officials of the three-year-old college are somewhat worried over the publicity gag that snowballed into a regular campus shindig.

The elephants raced a 100-yard course weaving in and out of poles. The races were broken down into various classes depending on the weight of the elephant.

Each of the elephants won a trophy for such categories as beauty, independence, showmanship, wisdom, courage and figure.

The most distant entrant in the elephant races was Harvard University which won the sweepstakes trophy as the "most honorable and ancient university" in the race.

The event was run on the order of the Kentucky Derby but "Decidedly" no record times were broken.

B.G.S.U. STUDENTS AND FACULTY!

You Are Cordially Invited To Participate in Bowling Green's Fourth Annual

BARGAIN DAYS

THURSDAY - FRIDAY - SATURDAY

MAY 17-18-19

CALENDAR OF EVENTS

THURSDAY, MAY 17

- Beat-Up-Car-For-Cancer—all day in front of Max Graeber's Store
- Free pony rides—4 to 8 p.m.
- Captain Cotton and Sally from WSPD-TV at Key Motors lot—7 to 7:30 p.m.
- Square Dance exhibition at Key Motors—8 to 8:30 p.m.

FRIDAY, MAY 18

- Beat-Up-Car-For-Cancer—all day in front of Max Graeber's Store
- Free Pony rides—4 to 8 p.m.
- Chicken Barbecue in the Army Reserve parking lot at 222 N. Main St.—4 to 8 p.m.
- Sally from WSPD-TV—7 to 8 p.m.
- Barbershop Chorus from local S.P.E.S.S.Q.S.A. chapter—7:30 to 8:30 p.m.

- Old Fashioned Bargain Days Parade—9:00 a.m. to start at Ridge St. parking lot at BGSU and proceed to Main St. Bands—Marching units—Old cars—saddle clubs.
- Chicken Barbecue at 222 N. Main St. from 11 a.m. to 6 p.m.
- Pony Rides—1:30 to 5:30 p.m.
- Mr. Thisledown from WTOL-TV—12 noon to 2 p.m. Personal appearance at the Cla-Zel Theatre—2:15 p.m.

Phi Delts Retain Lead In Fraternity Bowling

With just two weeks remaining in Fraternity bowling, Phi Delta Theta boasts a four-point lead over second place Kappa Sigma, who is one-half point in front of late-finishing Pi Kappa Alpha.

The Phi Delts, however, encounter two formidable opponents in the remaining weeks, clashing with the challenging PiKa's Thursday and then defending champion Phi Kappa Psi in the final effort.

In last week's action, the Phi Delts dropped an important contest to Delta Upsilon 878-802, but came back to capture the re-

maining three points. Denny Peck toppled a 577 set followed by Don Nelson's 565 to pace the league-leaders.

Kappa Sigma, behind a 631 series by Paul Schmitt, including finishing games of 234 and 214, romped over Sigma Nu in a four-point sweep to gain ground on Phi Delta Theta. Gary Cerney and Bob Buzogany blasted 542 and 541 series respectively to help direct the Kappa Sigma triumph. Walt Armour fired a 557 three-game set and Don Schick had a 538 effort for the losing Sigma Nu's.

Blasting Theta Chi in a three-game whitewashing, Pi Kappa Alpha remained in close contention for the league crown.

Closing with a 199 effort, Nick Chapley garnered a 543 series to pace Pi Kappa Alpha, aided by Paul Urban's 532 and Dick Mason's 508.

The individual average race has developed into a tight three-man contest between Sigma Nu's Don Schick, leader for most of the season, Phi Delta Theta's Don Nelson, and Kappa Sigma's Gary Cerney.

Phi Kappa Psi presently holds most of the team records for the season, including high team average 825, high team game 996, and high team series 2,777.

Spectacular performances have marked the individual league records paced by Pi Kappa Alpha's Nick Chapley who ran eleven straight strikes before leaving two for a 298 game.

Phi Delta Thetas Denny Peck led the individual high series contest with a 227-221-204-652 series.

LEAGUE STANDINGS

Phi Delta Theta	90 1/2
Kappa Sigma	86 1/2
Pi Kappa Alpha	86
Phi Kappa Psi	81 1/2
Sigma Phi Epsilon	69 1/2
Tau Kappa Epsilon	66
Delta Upsilon	59
Sigma Nu	58
Phi Kappa Tau	54 1/2
Sigma Alpha Epsilon	53
Delta Tau Delta	48 1/2
Theta Chi	46
Zeta Beta Tau	35
Beta Gamma	28

Broncs' Frosh Down BG Twice

Coach Joe Miller's freshman baseball team scored two runs in the first inning and made them stand up for eight innings. But Western Michigan came up with three runs in the ninth inning to defeat Bowling Green 4-2 in the first game of a doubleheader Saturday.

Bowling Green jumped off to a one-run lead in the second game, but was unable to hold the Bronco yearlings as they scored six runs to hand Bowling Green its third loss of the season.

Denny Vanderhorst struck out 13 batters, but the Broncos caught up with him in the ninth to hand him the defeat.

Bowling Green scored its two runs in the first inning on three walks and a single by Rick Nemet.

The Falcon yearlings picked up only two other hits, one each by Ron Ensinger and Bob Dwors.

In the second game, Bowling Green scored its only run in the third inning on a sacrifice fly. Frank Reyes, the losing pitcher for the Falcons, scored the lone run.

Bowling Green will be traveling to Toledo today, and then close out its season with a doubleheader Saturday at Kent.

BG Cindermen Lose To Western

Bowling Green's varsity and freshman track teams were soundly trounced by Western Michigan at Kalamazoo, Mich., Saturday.

Western Michigan's varsity team, running without the services of its top four distance runners who were participating in a relay meet on the west coast, defeated Bowling Green's varsity 108 1/2-38 1/2.

The Falcons' freshman team did not fare much better as it was defeated 105-42.

Barry Binkley and Lloyd Kime picked up two of Bowling Green's first-place finishes in the varsity meet. Binkley won the mile run in 4:30.5, and Kime captured the two-mile event in 9:59.2.

Kent Nash and Keith Hamilton shared first place with another Western Michigan player in the pole vault with a height of 12-6.

Walt Bettis finished second for Bowling Green in the 220-yard dash, and third in the 440-yard run. Jim Struna picked up the Falcons' only other second place in the discus.

Collecting third place finishes were Al Junior, Glenn Browning, Joe Muscarella, Roy Wilhelm, and Binkley.

Bowling Green picked up four first-place wins in the freshman meet. Ralph Canady won the 880-yard run in 1:59.4; Dennis Sherman, discus, 130 1/2; Bruce Zamcheck, high jump, 6 feet; and Ken Bryant, broad jump, 22-1 1/2.

Dale Cordova finished second in the two-mile event, but managed to set a new freshman record with a time of 9:59. The old mark was 9:59.3.

LEE MURRAY stands ready to receive a serve from his opponent. Murray was Bowling Green's only double winner against Miami as he won his singles match and teamed with Steve Brannan to capture one of the doubles matches. Despite Murray's efforts, the Falcons lost to Miami 5-3 Saturday.

Netters Host Oberlin; Miami Pulls 5-3 Upset

Bowling Green's tennis squad hosts Oberlin in the final dual match of the season at 3:30 p.m. today. Coach Bob Keefe's netters will be trying to better the record they set several matches ago when they picked up their seventh win to become the winningest tennis team in the history of the University.

On Saturday the Falcons suffered their third defeat of the season as Miami upset Bowling Green 5-3.

Lee Murray and Ted Norris won Bowling Green's only two matches in singles competition. Murray and Steve Brannan picked up the Falcons third point in doubles action. One of the doubles matches was called off due to rain.

The results were:

Singles: Lee Murray (BG) d. Stu Opdyke (M) 3-6, 6-3, 6-0. Ted Norris (BG) d. Fred Bonsack (M) 6-2, 6-2, 6-1. Kurt Swearingen (M) d. Dennis Rash (BG) 3-6, 6-2, 6-2. Sheldon Alper (M) d. Dick Leathers (BG) 6-3, 6-4. Dave Kolaski (M) d. Dick Haacke (BG) 4-6, 6-1. 6-2. Jim Meyer (M) d. Steve Brannan 9-7, 6-0.

Doubles: No. 1 cancelled due to rain. Murray and Brannan (BG) d. Bonsack and Swearingen (M) 6-4, 7-5. Alper and Kolaski (M) d. Leathers and Rash (BG) 6-4, 6-4.

Notre Dame, landslide victors over Ohio intercollegiate champion Ohio State, ruined the Falcons' bid to become the winningest golf team in BG history with a 14 1/2-3 1/2 setback.

The Falcons topped last year's record of 12-8-1 with a 12-6 mark. Last season the Falcons fell to the Fighting Irish 13-5.

Hillsdale handed the Falcons their third straight defeat with a close 11-7 decision. The results were:

Notre Dame 14 1/2 Bowling Green 3 1/2
Grace (ND) d. Ambrose 3-0; Pietras (BG) d. Ferrell 2 1/2-1/2; Vollhauber (ND) d. Hoyl 2-1; Highcheck (ND) d. Wille 3-0; Bisconti (ND) d. Randall 3-0.
Hillsdale 11 Bowling Green 7
Auseen (H) d. Ambrose 3-0; Savarino (H) d. Pietras 2 1/2-1/2; Hayl (BG) d. Fisher 2 1/2-1/2; Chapman (BG) and Marsh split 1 1/2-1 1/2; Henschell (H) d. Wille 2 1/2-1/2; Randall (BG) d. Haynes 2-1.

Broncos Retain Hold On League 1st Place

Coach Dick Young's varsity baseball team fought back from a five-run deficit to take a one-run lead in the top of the fifth inning, but was unable to hold on as Western Michigan went on to win 7-6 at Kalamazoo, Mich., Friday.

The league-leading Broncos upped their Mid-American Conference record to 7-0, while the Falcons suffered their fourth league defeat as against three wins.

Western Michigan tied the game in the bottom of the fifth and scored what proved to be the winning run in the sixth inning.

Mid-American Conference Baseball Standings			
Team	W	L	PCT.
Western Michigan	7	0	1.000
Ohio U.	7	3	.700
Kent State	5	3	.625
Bowling Green	3	4	.429
Miami	4	6	.400
Toledo	3	5	.375
Marshall	0	8	.000

Bowling Green is now 13-10 overall, while Western Michigan has lost just once in 13 games.

The Falcons have just two MAC games remaining this week end with Ohio U. Bowling Green will close out its season May 22 at Detroit.

Jim Keener lasted one and one-third innings for the Falcons as he gave up three walks and five runs. Roy Clark allowed just two runs in the final six and two-third innings, but seven walks led to his downfall.

Bowling Green bounced back in the fourth inning as Jerry Paner

doubled and Glenn Honeycutt reached first on an infield hit. A passed ball allowed one run to score and a sacrifice fly scored the second run.

In the fifth inning Gary Kimmel singled, Clark drew a walk, and George Verber singled to load the bases. Paner doubled to drive in two runs and Tom Tiettmeyer singled to drive in the tying run. Les Gast followed with a single to put the Falcons in the lead.

Bowling Green almost pulled the game out in the ninth when the Falcons had men on second and third with two out. Tiettmeyer, however, flied out deep to left to end the game.

Ken Larson, the Broncos' leading pitcher with a 4-0 record and earned run average of .090, was knocked out of the box by Bowling Green's six-run uprising.

Clark suffered his second loss of the season.

The Falcons were to have played Western Michigan on Saturday, but the game was called off three hours before the scheduled starting time. The reason given for calling the game was wet grounds, but the sun was shining brightly at the time. The home team manager has the right to call the game before it gets underway.

Bowling Green 000 240 000-6 12 2
Western Mich. 320 011.00x-7 8 0

The baseball team has had three Mid-American Conference games rained out this year.

Which diamond is a girl's best friend?

Every girl knows "a rose is a rose is a rose." But is a diamond a diamond?

The smart girl who cares (about beauty and value) knows there's more to a diamond than meets her eye. Even under magnification, a diamond reveals its inner secrets only to the eye of a trained expert. That's why America's College Queens have chosen their "best friends" from among the award-winning designs of the world-famous Artcarved selection.

Every Artcarved diamond gives you more than the beauty which meets your eye. The quality and value of its inner beauty is also certified by a written guarantee that is recognized and respected by leading jewelers everywhere.

If you want to be sure of the inner beauty and value of your diamond, see your Artcarved jeweler. Ask him to show you the styles chosen by America's College Queens.

Board Of Trustees Approves Expenditure For Library Extension

The Board of Trustees has approved an expenditure with which to begin planning for an extension of the library.

A Library Advisory Committee has been appointed by President Ralph G. Harshman. The committee will study the type of library services that will be needed in the future.

Members of this committee are Provost Paul F. Leedy, who will serve in an ex officio capacity; Dr. John R. Coash, chairman of the geology department, representing the natural sciences; Dr. Maurice I. Mandell, representing business administration; Dr. Robert W. Twyman, chairman of the history department, representing the social sciences; Dr. Jacob Verduin, chairman of the biology department, representing the Graduate School; Prof. Willard F. Wankel, chairman of the art department, representing the humanities; Dr. Martha G. Weber, director of the reading center, representing education; and A. Robert Rogers, acting director of the Library, chairman of the committee.

The University also has engaged the services of Dr. Ralph Ellsworth, director of libraries of the University of Colorado, as a consultant. He arrived here May 9, and attended the third meeting held by the committee. Also present was Carl Bentz, the state architect, who with Dr. Ellsworth gave preliminary reports to the committee.

Big, Little Sis Plans Underway For Fall

Plans for the annual Big Sister-Little Sister program, sponsored by the Association of Women Students, are underway.

All women students returning to the University next fall are eligible to sign up for a Little Sister by giving a stamped, self-addressed envelope to their respective dormitory counselors by Thursday. The names of the Little Sisters will be sent to the Big Sisters this summer.

"Each upperclass woman should write to her little sister this summer, take her to the Nest, and show her around campus this fall to acquaint her with the University," said Nancy A. Link, first vice president of AWS.

Events being planned for the program next fall include the annual Big Sister-Little Sister Style Show and picnic.

2 Seniors Receive Business Honors

BIGELOW

Two seniors in the College of Business Administration recently received honors in their field.

Larry L. Rankin has been presented the Marketing Honors Award from the Northwestern Ohio Chapter of the American Marketing Association, Toledo. The selection was made by the marketing faculty in the College of Business Administration on the basis of scholarship, leadership, character, and personality.

The Credit Association of Northwestern Ohio, Toledo, has made the award of Credit Management Honors to Lester D. Bigelow. He was nominated by the faculty in the area of finance and marketing and chosen by a committee of the Credit Association.

Both students will be graduated next month.

RANKIN

Currier To Speak At AWS Breakfast

The annual Senior Breakfast, sponsored by the Association of Women Students, will be held at 9 a.m., Saturday, in the Dogwood Suite.

Invitations have been sent out to those women who will be graduating in June, August, or January. Sibyl G. Preuninger, senior, will be the toastmistress for the event and a farewell address, "Farewell to Seniors," will be given by Mrs. Florence K. Currier, dean of women.

Entertainment will be provided by Cap and Gown, national honorary society for women, and Sara J. Ewalt, sophomore.

"Senior women who have not received invitations to the breakfast should contact the office of the Dean of Women immediately," said Sally J. Schweizer, chairman of the event.

Annual Kappa Sig

(Con't From Page 1)

ending on the field behind the Fine Arts Bldg.

The races will be divided into men's and women's divisions, with winners in each division receiving trophies.

Rain prohibited the running of the races last year. The winners of the 1960 trophies were Alpha Chi Omega and Alpha Phi Alpha, race winners, and Chi Omega and Phi Kappa Tau, decoration winners.

"We have tried to make this the biggest and best chariot race ever, and we hope to see a large crowd there to enjoy the races with us," said Don A. Powell, president of Kappa Sigma.

University Theatre To Present Final Bill Of One-Acts Friday

The last bill of one-act plays produced by the University Theatre this year will be presented at 7:30 p.m. Friday, in the Joe E. Brown Theatre.

The three one-act plays, "Finders Keepers," "Once Around the Block," and "A Marriage Proposal," will all be produced in arena-style.

"Finders Keepers" by George Kelly is a modern comedy which will be staged in the round arena-style. The play questions our modern code of ethics.

A young wife discovers a purse containing five hundred dollars, and in order to prevent someone else from stealing it, she decides to keep it herself. The conflict heightens when, by coincidence, her next door neighbor has lost the same amount. When her husband turns the tables, normalcy returns to all except the wife, who has lost her own allowance, which just by coincidence her husband has discovered.

Moorhead Presents Paper At Meeting

Rebecca Moorhead, senior mathematics and chemistry major, presented a paper at a state-wide meeting of Student Affiliates of the American Chemical Society at Mount Union College, recently.

The paper, "The Use of Electrical Conductance Measurements in the Determination of the Nature of Solutions of Electrolytes," is based on research that Miss Moorhead is carrying out with Dr. Wilbert Hutton, assistant professor of chemistry.

Thomas L. Neuman will appear as Mr. Aldrid and Linda K. Shackelford, as his wife, Mrs. Aldrid. The play is directed by George M. Weiss.

"Once Around the Block" by William Saroyan is a modern comedy which centers around a rather inebriated young playwright and naive novelist friend.

They encounter a hilarious situation with a policeman and young girl while attempting to get a girl for the novelist.

The cast for the play includes: James L. Schneider as Philip Judah, Ronald C. Sherer as Jimmy London, Nancy A. Cole as Frances, and Allan H. Davis as the cop. Nancy L. Wheelock is directing the play.

The final play in the bill of one-acts is "A Marriage Proposal" by Anton Chekov. The play is a fast-moving, rollicking comedy. The story involves a young man who is trying to propose to the daughter of his neighbor, but the entire situation turns into a farcical chain of petty, violent arguments, complicated by feigned heart attacks by the outnumbered suitor.

The cast includes: Celeste M. Ramey as Natalia, David K. Fisher as Stepan, and Michael A. Denison as Ivan. The play is directed by Thomas C. Parker. Neal R. Fenter is the assistant-director.

Admission to the three one-act plays is free.

4 Residence Halls To Sponsor Dance

Williams, Kohl, Rodgers North West, and Conklin Residence Halls will sponsor an all-campus dance from 7:30 p.m. until 12:30 a.m. Saturday on the recreation area behind Conklin Hall.

A Hawaiian theme will be used and free leis will be given to the first 100 persons attending. Admission is free. The name of the band will be announced later.

University Professors Active In Visiting Scientist Program

Bowling Green is one of 26 Ohio colleges and universities presently active in the Visiting Scientists Program for high schools, financed by the National Science Foundation.

The aim of the Visiting Scientists Program is to provide, upon invitation from high schools in Ohio, professional scientists and engineers to discuss scientific topics, projects, and problems at no cost to the schools.

This program is an activity of the Ohio Academy of Science and is part of the nationwide effort to support and strengthen science education.

More than 125 scientists from the colleges and universities in Ohio, as well as representatives from four research institutions and about a dozen manufacturing industries, have volunteered their services for the Visiting Scientists Program.

These visitors are drawn mainly from the subject matter fields of biology, chemistry, earth science,

physics, and engineering to speak on science topics which the high schools request.

Some of the things the scientists do at the high schools they visit include speaking to science clubs, meeting with individual classes or groups of classes, participating in science work shops, and conferring with administrators and science teachers.

The university has sent a number of its faculty to the high schools of Northwestern Ohio in the past year to speak on everything from rocks to rockets.

Among those participating are Kanna K. Anders, assistant professor of chemistry; Dr. Arlo D. Boggs, associate professor of chemistry; Dr. Milford S. Lougheed, associate professor of geology; Dr. John R. Coash, professor of geology; Dr. Jacob Verduin, professor of biology; and Gerald Acker, associate professor of biology.

The Ohio Academy of Science, in addition to its senior division composed of professional scientists, also has a junior division established several years ago.

The junior division is directed by Mr. Acker of the biology department. Its purpose is to encourage high school students who have high aptitudes for science and engineering.

The most publicized activities of the junior academy center around the "science days," for which the academy provides advice, supplies, and information to schools and teachers.

Black To Give Special Lecture

A special lecture sponsored by the Liberal Arts Lecture Committee and the department of speech will be given tomorrow by Dr. John W. Black, professor of speech at Ohio State University.

Dr. Black will speak on the subject "Teaching Machines" from

DR. BLACK

3:30 to 5 p.m. in the Ohio Suite. Following the lecture there will be a half hour question and answer period.

Among Dr. Black's contributions to the field of speech and hearing science are two text books, numerous reports, articles, and reviews. In addition, he has served as editor of the Quarterly Journal of Speech, chairman of the Committee on Voice Science of the Speech Association of America and is a member of the Committee on Academic and Professional Preparation of the American Speech and Hearing Association.

Dr. Black received a six-month National Science Foundation grant for study in Europe during 1961. He received the bachelor of arts degree from Wabash College in 1927 and the master of arts and doctor of philosophy from the State University of Iowa.

Mathematics Society Initiates 38 Members

Kappa Mu Epsilon, national mathematics honorary society, initiated 38 new members at a banquet Thursday in the Pink Dogwood Room.

Those initiated were Dick J. Ambrose, Robert D. Anglim, Philip S. Beachey, Nancy K. Blackford, Robert D. Blandford, S. Elwood Bohn, Michael S. Biroda, Joyce E. Brown, Letha C. Bunde, Thomas R. Cavinec, Verna M. Collier, Wendell A. Cox.

Richard C. Fox, Jack T. Fulmer, Georgetown M. Gdovin, Brian R. Gfeller, Marcel G. Hebert, Richard E. Heyl, Alvin L. King III, J. Frederick Leetch, Karen M. Mansfield, Ronald L. McBride, William J. McClurken, Bruce E. Partner, Laverne J. Petek, Wayne E. Phyllaier.

James N. Reynolds, Richard J. Rupp, John E. Schlatter, Gary J. Sherman, Donald E. Shreve, Christine M. Stoffel, Ronald A. Stollenberg, Richard D. Twaddle, Frederick A. Webber, Kenneth C. Williams, Sandra A. Zierolf, and Barbara J. Baker.

Dr. Clifford A. Long, assistant professor of mathematics, is the adviser to the society.

Judges Pick

(Con't From Page 1)

the final judging. The parade and some spirits were hampered somewhat by a slight but steady drizzle that prevailed throughout the parade.

May week end officially came to a close with the University Anniversary Prom, held Saturday night from 9 p.m. to midnight in the ballroom. Dance music was provided by Kip Fraser and his orchestra. Special entertainment was provided by the Lettermen, nationally-popular recording artists.

During intermission, the class of 1962 presented a large rotating trophy to Alpha Xi Delta, the new Queen's housing unit. Permanent trophies also were presented to each of the attendants.

Science Foundation Grants Aid To Geologists For Research

The National Science Foundation has notified the University of the awarding of two financial grants for research programs in the department of geology.

One of the grants will involve participation in research by undergraduate students on the University campus. The second grant provides for field study of glacial problems in Antarctica by Dr. Charles C. Rich, assistant professor of geology.

The grants are sponsored on a nation-wide basis by the NSF through its "Undergraduate Science Education Program."

Invitations to participate in the student grant will be extended to two junior or senior students majoring in geology or earth science.

Students selected will have a minimum of two years of geology courses in which they have maintained a minimum grade average of 3.0. Maturity, sense of responsibility, and initiative demonstrated by students also will be

considered in selecting participants.

The one-year program will begin in the fall semester and will involve study of glacial deposits in northwest Ohio resulting from recent ice ages.

The nature and distribution of the deposits will be studied in the field and samples will be collected for later laboratory analysis.

The undergraduate research will be directed by Dr. John R. Coash, chairman of the department of geology.

Field studies in Antarctica by Dr. Rich will be supported through the "Office of Antarctic Programs" of the NSF.

Field work will be carried out from November until February in ice-free areas bordering the Ross Ice Shelf. Primary purpose of the program will be to study glacial deposits in recently abandoned areas by the glaciers.

In Antarctica, Dr. Rich will be working as a member of an expedition from the department of geology of Victoria University in Wellington, New Zealand. Prior to departing to Antarctica, Dr. Rich will serve as guest lecturer in geology at the Victoria University in late September and October.

In order to carry out his program in Antarctica and New Zealand, Dr. Rich will be on leave of absence from the University during the fall semester.

Accounting Majors Receive Awards

Presentation of two awards, a speech on "Obligations of the Accountant," and installation of officers highlighted the annual spring banquet of Beta Alpha Psi, national accounting honorary fraternity May 6.

Jack L. Bell, the graduating senior accounting major with the highest accumulative point average, was presented with the National Grand Council Scholarship Award certificate. The Alpha Upsilon Chapter Award of \$25 was presented to Carl A. Lipp for outstanding service.

The speaker at the banquet was George D. Falls of the PermaGlass Corporation. Mr. Falls was initiated as an honorary member of the fraternity.

The newly elected officers who were installed are: William Q. Kirkwood, president; John S. Rokasy, vice president; Eleanor J. Myers, secretary; and John H. Schult, treasurer.

Orientation Board Sponsors Info Night

The Orientation Board of the Student Cabinet is sponsoring an "Information Night" beginning at 7 p.m. Monday, in the Ohio Suite of the Union.

This meeting is for all student orientation leaders and students who were selected as alternate leaders.

"The purpose of the meeting," said Deanna J. Bolfa, chairman of the Board, "is to train the student leaders so they are better prepared to inform the incoming freshmen about campus life in general."

An outline of the orientation schedule for next fall and guides for the section meetings the leaders will conduct will be given out.

UP, UP, UP goes the new 11-story Administration Bldg. which will cast a shadow across Prout Chapel. The building, scheduled for completion January 1, will be the tallest structure in Wood County. (Photo by SI Shapiro, Photo Editor)

Kampus Kaleidoscope

Coming
Society for the Advancement of Management—Will hear a lecture demonstration entitled "Voices in Space" at 7 p.m. tomorrow in the Dogwood Suite. Frank Semelko, of the Ohio Bell Telephone Co., will present a step by step recount of "Project Echo," man's first successful attempt to communicate between distant points via the use of a satellite, and will conclude his lecture with some speculation about the future of space communication.

Gamma Delta—Will meet at 8 p.m. tomorrow in the Luthern Student Center. The topic of discussion, "How to Stay Married," will be based on the book "Sex Without Fear."

Conklin Hall—Will hold a discussion on "The Right Wing in American Politics" led by Dr. George Herman, associate professor of speech, at 10 p.m. tomorrow in the Conklin Lounge.

Conklin Hall—Will hold its spring dance from 9 p.m. to midnight Saturday in the Dogwood Suite. Bobby Haskins and his combo will play for the dance which is open to residents of Conklin Hall and their dates.

Going
Beta Beta Beta—National Biology

society installed officers and held a discussion of radiation led by Michael F. Lalli, graduate student. New officers are: Jerry L. Simmons, president; Janet L. McCauley, vice president; Nancy J. Joslin, secretary; Carol L. Mount, treasurer; and Charles A. Harper, historian.

Swan Club—Held election of officers. They are: Marcia L. Ohly, president; Sally J. Hamilton, vice president; Judith A. Mesnick, secretary; Kaye B. Reed and Barbara L. Williams, publicity; Sandra M. Smith and Lorretta A. Foerich, managers.

Film Depicts Novelist's 'A Farewell To Arms'

"A Farewell to Arms" will be the campus movie this weekend.

"A Farewell To Arms" stars Rock Hudson, Jennifer Jones, Vittorio DeSica, Oscar Homalka, and Mercedes McCambridge. It is based on Hemingway's tragic love story of an American ambulance driver and an English nurse who meet on the Italian front in World War I. The movie will be shown at 6 and 9 p.m. Friday and Saturday.

Realm Of Professors

Dr. Melvin Hyman
Dr. Melvin Hyman, associate professor of speech, is the author of a chapter in the new book, "Voice and Speech Disorders-Medical Aspects," edited by Nathaniel M. Levin, M.D., and published by the Charles C. Thomas Company. The chapter written by Dr. Hyman is titled "Rehabilitation After Trauma or Surgery of the Maxillofacial and Oropharyngeal Areas."

Dr. Norman J. Meyer
Dr. Norman J. Meyer, assistant professor of chemistry, was elected president of the Northwestern Ohio Chemistry Teachers Association at its annual meeting recently.

Dr. Jacob Verduin
A method of measuring radioactivity in plant leaf ash as an indication of the level of radioactive debris from atomic tests has been developed by Dr. Jacob Verduin, professor of biology. The study, in the form of a laboratory exercise, describes research subsidized by the Atomic Energy Commission.

Dr. John Hiltner
James A. Taylor

Dr. John Hiltner, Jr., assistant professor of geography, and James A. Taylor, instructor in geography, were on the program at the Ohio Academy of Science annual meeting in Toledo May 4. Dr. Hiltner presented a paper on city planning and urban problems entitled "Problems of Construction and Reconstruction in the City of Istanbul, Turkey." Mr. Taylor presented a paper entitled "Access as a Factor in the Loca-

tion of Tourist Outfitters Camps in Northern Ontario."

James A. Taylor, instructor in geography, passed his final oral examination in defense of his dissertation at the University of Illinois, May 7. He will receive the Ph.D. degree from that University at June commencement.

Dr. Mearl R. Guthrie
"The Place of Secretarial Administration in Schools of Business," is the title of an article by Dr. Mearl R. Guthrie Jr., chairman of the department of business education, which appears in the latest issue of "Collegiate News and Views." The publication is for administrators and teachers of college business and economic subjects.

Dr. Jacob Cohen
An article, "The Effect of Cash Buying and Credit Buying on Consumer Liquid Savings," authored jointly by Dr. Jacob Cohen, associate professor of economics, and Professor James N. Morgan, University of Michigan, appears in the March issue of the "Journal of Finance." The article was based on the Surveys of Consumer Finances prepared by the Survey Research Center, at the University of Michigan.

Dr. Donald Bowman
A paper by Dr. Donald Bowman, professor of physics, entitled, "Fluorescopy Limits With High Voltage X-Rays," was read at a recent meeting of the Society of Non-Destructive Testing and the American Welding Society in Cleveland. The paper was based on work done by Dr. Bowman at the Detroit Arsenal.

Discussion Groups

Cobus Hour

The final Cobus Hour speaker for the current school year will talk on "Economic Research and Monetary Policy" at 3:30 p.m. tomorrow in the Pink Dogwood Room.

The speaker will be Dr. Addison T. Cutler, special economist of the Federal Reserve Bank of Cleveland, an official position corresponding in rank to assistant vice president.

Dr. Cutler has been with the bank since 1947 and is editor of its research publications. He is editor of the "Monthly Business Review," the "Annual Report" of the bank, and participates in the "Business Trends" radio program on station WGAR, Cleveland.

Before joining the bank, Dr. Cutler was with the Office of Price Administration and the International Labor Office. Prior to that he taught economics at the University of North Carolina, Columbia University, and Fisk University.

He has published a number of articles on economic subjects and is co-author of a textbook with Dexter M. Keezer and Frank R. Garfield. He is a member of the American Economic Association and of Phi Beta Kappa, national honorary scholastic society.

Books And Coffee

Excerpts from three of Jean Genet's plays will be read at Books and Coffee Hour, 3:30, Thursday in the Ohio Room.

Taking part in readings from "The Maids," "The Balcony," and "The Blacks" are John H. Reilly and Janis L. Pallister, instructors in romance languages, and Mrs. Ann M. Ridgeway, graduate assistant in English.

A discussion period will follow the readings.

President To Review ROTC Cadet Corps

The annual presidential review of the ROTC cadet corps will be held at 11 a.m. today.

President Ralph G. Harshman will review both the Army and Air Force groups in a parade to be held on the mall in front of the Administration Building.

As part of the review, awards will be given to cadets of both groups for outstanding achievement in various areas.

Court News

First Parking Violation

William G. Broadus, fined \$1; Paul L. Harmon, case continued; Robert C. Leuten, fined \$1.

Second Parking Violation

Robert C. Leuten, fined \$3, given one week's suspension of driving privileges.

First Moving Violation

Thomas C. Kling, fined \$5. **Falsification of University Records** Allan S. Partlow, fined \$25; Charles N. Trostee, fined \$25.

Non-Registration

General A. Faulkner, fined \$15. \$10 suspended.

Smoking in Bed

Mary L. Grosbeck, fined \$5.

Official Announcements

International Harvester Company has announced summer employment opportunities for sophomores and juniors. The salary will be \$200 per month and a commission. Toledo and Cleveland will be the locations. Sophomores and juniors interested in applying for positions are urged to visit the Placement Office, 301 Administration Bldg.

Judith Kiss, Kisses Reign Over Rainy Week End

Anticipation Mounts

By Horace Coleman

It started with a Kiss; it ended with a kiss. That sentence describes briefly this year's Spring Week End. The coronation of Queen Judith L. Kiss on Friday and the presentation of her court was the opening act. The final scene of Spring Week End, one often repeated, was a goodnight kiss like the one in the picture in the lower right hand corner of this page.

The Annual May Float Parade was marred once more by the "annual" Spring Week End rains. The drizzling rain that fell throughout the parade downtown and during the judging of the floats in the University Stadium dampened costumes but not spirits. Male students with raincoats and coeds in raincoats watched the parade and the judging in a light shower that ended shortly after the festivities were finished.

The theme of the first place float was "Anthony and Cleopatra." Sigma Phi Epsilon, which was

paired with Alpha Chi Omega, has been a collaborator in the construction of the winning float for the past two years.

Saturday night's contribution to Spring Week End was the University Anniversary Prom. The Prom attracted a larger crowd than did the coronation. During the intermission the Queen and her court were presented.

Shortly after the Lettermen's final appearance, Kip Fraser announced the band's last number. As the final chords of it faded into nothing, couples began drifting off the floor. Soon they were strolling back to sorority row, and their dormitories. Spring Week End, 1962, was over.

Here Comes The Band

AND THE BAND PLAYED ON through the sunshine and the unwelcomed rain as they led the floats from Overman Hall to Wooster St. through the downtown area and back towards the campus on Ridge St. Saturday. The parade then was led into the Stadium where the final judging of the floats was held. The band also provided the music throughout the procession of floats past the judges stand in the Stadium.

And This Is The Winner

THE ROYAL COURT'S escorts are eyeing the winning float. The float entitled "Anthony and Cleopatra," was built by Sigma Phi Epsilon social fraternity and Alpha Chi Omega social sorority. The second place float was entitled, "All the World's a Stage." It was constructed

by Delta Gamma social sorority and Phi Delta Theta social fraternity. Third-place honors went to Alpha Phi social sorority and Phi Kappa Psi and Delta Upsilon social fraternities.

Just Sittin' In The Rain

ALL EYES FOLLOWED the activities of the May Queen, Judith L. Kiss, and the four members of her royal court during the May week-end festivities. But what about the gallant gentlemen who served as escorts and shielded

the fair ladies from the rain? They turn their eyes away from the majestic court for a few seconds and look elsewhere. Where are they looking?

The Lettermen Sang

THE LETTERMEN, nationally known recording trio, offer another ballad in their now famous style to the gathering of students present at the University Anniversary Prom Saturday night in the ballroom. Tony Butalo is the soloist.

Twisting The Night Away

ROUND 'N' ROUND and up 'n' down they went Saturday night. Kip Fraser's band varied its tempo from waltzes to cha-cha's. Most of the time they played smooth music. Active dancers took advantage of one of the last free week ends before finals to "shake" their worries.

And The Dance Is Over

THE DANCE IS OVER. It will soon be time for the coach to become a pumpkin again. In a short time the week-end festivities will become only a memory. All that remains is . . .

A Goodnight Kiss
